НОЯБРЬ 2019
Первый выпуск облигаций,
включенных в Сегмент
зелёных облигаций Сектора
устойчивого развития

FIRST GREEN BOND in Russia was placed on Moscow Exchange on November 2019. The issue was oversubscribed by nearly 2 times.

«The first green bonds were placed on the Moscow Exchange in the amount of 250 million rubles. But not the amount is so important, but the trend. In our country green investment has enormous potential and it is important for us to encourage businesses to invest in environmental projects».
